

THINKSMART REVENUE UP 30% - ON TRACK TO ACHIEVE FULL YEAR PROSPECTUS FORECASTS

ThinkSmart Limited (ASX:TSM) today reported a half year profit before tax for the six months ended June 2007 of \$3.4m after allowing for IPO costs and amortisation of intangibles totalling \$4.7 million, up from \$0.1m, which sees it on track to achieve its full year prospectus forecasts.

A strong performance from existing territories in the UK, Australia and Spain saw a combined growth on a normalised basis on the previous corresponding period in settled volumes of 20.2% with total revenue increasing 30.4% to deliver an EBITDA margin growth of 400%.

ThinkSmart's sales and marketing strategies with its retail partners are driving increased penetration results across all territories with volumes from its new relationship with JB Hi-Fi in Australia continuing to be strong and at the upper end of expectations.

Margin improvements have been driven by increasing inertia revenues from the UK operations as well as increased insurance sales revenues in the UK and Australia.

"Better than expected volumes together with expense management have offset the earnings impact of a strong Australian dollar," said Ned Montarello, managing director and CEO.

"With trading conditions in all markets continuing to perform in line with our expectations, the Board remains confident that we will deliver our full year prospectus forecasts."

In Europe, ThinkSmart remains on track to launch into the Italian market in Q4 2007 having secured a funding agreement with Banco Santander for a scheduled roll out to DSG International's 12 PC City stores.

It is also in negotiations with a number of retailers in France that are expected to result in re-opening of that territory in 2008.

In Australia, ThinkSmart secured a new three year deal with the Officeworks group which should see increased volume contributions from September 2007 onwards. In addition it is planning to launch in the New Zealand market with JB Hi-Fi in late Q4 2007. Neither of these opportunities were included in its prospectus forecasts.

US negotiations with both funders and retailers continue to progress well with in principle agreement reached with funders and a major US retailer.

REVIEW OF OPERATIONS

The period has seen the Group successfully list on the Australian Stock Exchange, raising \$13million in new equity, with investments made by some of Australia's leading institutions. The success of the initial public offering represents an endorsement of the Group's business model and strategic plan to deliver growth in both domestic and international markets.

Highlights for the half-year include:

- Net profit before tax (before IPO costs and intangibles amortisation of \$4.7 million) increasing from \$0.1million at 30 June 2006 to \$3.4million, on track to achievement of the Group 2007 forecast.
- Strong performance from existing territories in UK, Australia and Spain with combined normalised growth on previous corresponding period in settled volumes of 20.2% and total revenue increase of 32.4% delivering EBITDA margin growth of 142%. Volume growth has been achieved through new retailer relationships including JB HiFi in Australia, deepening existing retail relationships and continued focus on key relationships at the retail point of sale leading to increasing rates of penetration. In addition to inertia revenues from UK operations, total revenue has benefited from increased insurance revenues in UK and Australia.
- Negotiations with multiple retailers in France that is expected to result in recommencement of business in this territory during 2008.
- Progress in the development of opportunities in additional territories including the completion of due diligence for Italian operations with operations scheduled to commence during the final quarter 2007.
- Negotiations in US with both funders and retailers continue to progress well with in principle agreement reached with funders and a major US retailer.
- Completion of financial settlement in June 2007 to acquire 50% interest in UK operations previously held by HBoS for a total of £3.05million.
- Completion and implementation of rewrite of core intellectual property "SmartCheck" on schedule and within budget.

Independent auditor's review report to the members of ThinkSmart Limited

Report on the financial report

We have reviewed the accompanying half-year financial report of ThinkSmart Limited, which comprises the consolidated interim balance sheet as at 30 June 2007, income statement, statement of changes in equity and cash flow statement for the half-year ended on that date, a description of accounting policies and other explanatory notes and the directors' declaration of the Group comprising the company and the entities it controlled at the half-year's end or from time to time during the half-year.

Directors' responsibility for the financial report

The directors of the company are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of an Interim Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 30 June 2007 and its performance for the half-year ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of ThinkSmart Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of ThinkSmart Limited is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2007 and of its performance for the half-year ended on that date; and

- (b) complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the Corporations Regulations 2001.
